

Newsletter April - May 2018

Dear Members,

The CEB-BEC is pleased to send you its latest newsletter.

The CEB-BEC is pleased to present a new colleague Luk Van Hecke. Luk is an engineer and he will join our team as a Technical Officer. In this way we want to increase our support to our experts in their technical work.

At Belgian level, the first meeting of the CEB-BEC 124 mirror committee - **Wearable electronic devices and technologies**, took place in April 6, 2018 where a Belgian position was taken for various IEC working documents.

CEN-CENELEC StandarDays, May 3-4, 2018

StandarDays is a two day information session aimed at newcomers to European

standardization, as well as those who would like to understand the CEN and CENELEC systems better.

All persons interested in the European Standardization System are welcome: national standardization organizations, European institutions, research centres and academia, students, administrations and government, industry and industry associations, start ups, think tanks, environmental organizations, consumer organizations, unions, and other interested parties.

StandarDays gives you the opportunity to:

- participate during 2 days in information sessions given by European experts
- understand the role and advantages of European Standards
- learn about the process of making European Standards
- hear how businesses can benefit from using standards
- discover current and upcoming trends in standardization
- explore the international context of European Standards
- find out what the link is between legislation and standardization
- meet standardization experts from CEN and CENELEC
- get answers to your questions about European Standards
- network with other participants interested in standardization.

Forthcoming CEN/CENELEC WEBINARS

Taking effective decisions in Technical Committee meetings - May 9, 2018

The focus of this webinar will be on finding the most effective way to formalise outcomes of Technical Committee meetings. The way TCs take decisions or define actions vary greatly, also number and formats of decisions have a significant impact on time lapse between their submission and handling by CCMC. Our aim is to optimise this process to improve the service we provide to the TCs

Inclusiveness of the standardization system – How to ensure that all stakeholders are represented - June 11, 2018

One of the strengths of the European Standardization System is its inclusiveness. A wide range of stakeholders contribute to the development of standards, each with their specific expertise. Find out why different stakeholders participate and learn more about the rights and obligations each of them has.

IEC has developed an **online interactive training course on the IEC**. The course provides useful insights into the IEC structure, operations and work, and can be used by National Committees or Technical Committees as part of the training course for new experts. Please

feel free to share this course with any newcomers in your National Committee or Technical Committee.

To start with the online interactive training course, click [here](#).

IEC Academy - IEC Webinars and Training workshop, click [here](#).

Curious about the challenges of the future and looking for a number of answers? Volta, in collaboration with Eandis / Infrac and VUB, is organizing a new series of information evenings on the clear trend towards **electrical energy storage**.

Forthcoming CEB-BEC Meetings:

CEB-BEC 20 - Electric cables - April 17, 2018

CEB-BEC 8 - Systems aspects of electrical energy supply - April 23, 2018

CEB-BEC 77-210-CISPR - Electromagnetic compatibility - April 23, 2018

CEB-BEC 2 - Rotating machinery - April 25, 2018

CEB-BEC 33 - Power capacitors and their applications - April 25, 2018

CEB-BEC CLC/CEN JTC 10 - Energy-related products - Material Efficiency Aspects for Ecodesign - April 26, 2018

CEB-BEC 34 - Lamps and related equipment - April 27, 2018

CEB-BEC 110 - Flat panel display devices - April 27, 2018

CEB-BEC 20 - Electric cables - May 4, 2018

CEB-BEC 59 - Performance of household electrical appliances - June 6, 2018

CEB-BEC 61 - Safety of household and similar electrical appliances - June 6, 2018

CEB-BEC 79 - Alarm systems - June 8, 2018

CEB-BEC 23B - Plugs, socket-outlets and switches - June 11, 2018

CEB-BEC 81 - Lightning protection - June 18, 2018

CEB-BEC 34 - Lamps and related equipment - June 22, 2018

CEB-BEC 20 - Electric cables - June 29, 2018
