

Newsletter March 2018

Dear Members,

The CEB-BEC is pleased to send you its latest newsletter.

In addition to CEB-BEC's representation of the Belgian interests at European and international level, CEB-BEC also ensures the implementation of European and international electrotechnical and electronic standards at Belgian level. The CEB-BEC also publishes and distributes European and international standards in the Belgian market. The BEC offers its know-how and experience in a number of ways and provides ready-to-use standardisation documents to stakeholders active in Belgium within the domain of electrotechnics and electronics.

Below you can find the current national work programme of the CEB-BEC, as well as the list of European draft standards that are/will be undergoing public enquiry:

[CEB-BEC latest work programme](#)

[CENELEC latest public enquiries](#)

[IEC latest public enquiries](#)

In addition, and as required by Regulation 1025/2012 on European Standardisation, you can find a [report](#) on CEB-BEC and its relation to SME's.

If you have any questions left after reading these pages, we are happy to help you. A good talk is often the quickest way to find answers! [Feel free to get in touch.](#)

IEC Academy - Webinar on **Conformity Assessment and Standards Development** - March 13, 2018

This webinar is addressed to IEC standards writers, technical experts and to TC/SC Chairs and Secretaries.

Standards are the basis for designing products process, services, etc. But market access is determined by a declaration of conformity to the standard. A declaration of conformity can be required by laws, by market stakeholders or due to self-interest (such as for marketing

purposes). It is important that IEC standards are written in a way that does not conflict with any of these and other considerations. This webinar will talk about these issues in the context of the ISO/IEC Directives and promote a dialogue on this subject.

For registration, click [here](#).

The 13th International Standards Olympiad - Kumhoasiana HRD Center - Korea - August 8 - 10, 2018

The 13th International Standards Olympiad

Since 2006, **KATS** (Korean Agency for Technology and Standards) and **KSA** (Korean Standards Association) has been organizing the Standards Olympiad as a tournament to instill an understanding of standards and to raise awareness of its importance among youngsters.

The International Standards Olympiad targets students from elementary to high school in Korea and overseas. Teams must pass the preliminary round to qualify for the main event of the tournament wherein participants get to experience standardization as they go through the process of solving project assignments. In 2014, the Olympiad was launched as an international event; from 2015 onward, the International Standards Olympiad will be held as a formal tournament.

The International Standards Olympiad assesses standard setting not just from conceptual perspectives; it is a tournament that involves creativity, scientific knowledge, and technology. Participants will have an exciting time gaining practical experience in standardization.

Forthcoming CEB-BEC Meetings:

CEB-BEC 116 - Safety of motor-operated electric tools - March 14, 2018

CEB-BEC 62 - Electrical equipment in medical practice - March 19, 2018

CEB-BEC 22 - Power electronic systems and equipment - March 21, 2018

CEB-BEC 23A - Cable management systems - March 21, 2018

CEB-BEC 17 - High-voltage switchgear and controlgear - March 26, 2018

CEB-BEC 44 - Safety of machinery - Electrotechnical aspects - March 26, 2018

CEB-BEC 57 - Power systems management and associated information exchange - March 28, 2018

CEB-BEC 100 - Audio, video and multimedia systems and equipment - March 29, 2018

CEB-BEC 108 - Safety of electronic equipment within the field of audio/video, information technology and communication technology - March 29, 2018

CEB-BEC 7 - Overhead electrical conductors - March 30, 2018

CEB-BEC 11 - Overhead lines - March 30, 2018

CEB-BEC 124 - Wearable electronic devices and technologies - April 6, 2018

CEB-BEC 111 - Environmental standardization for electrical and electronic products and systems - April 9, 2018

CEB-BEC 59 - Performance of household and similar electrical appliances - April 13, 2018

CEB-BEC 61 - Safety of household and similar electrical appliances - April 13, 2018

CEB-BEC 20 - Electric cables - April 17, 2018

CEB-BEC 8 - Systems aspects of electrical energy supply - April 23, 2018

CEB-BEC 77-210-CISPR - Electromagnetic compatibility - April 23, 2018

CEB-BEC 2 - Rotating machinery - April 25, 2018

CEB-BEC 33 - Power capacitors and their applications - April 25, 2018

CEB-BEC CLC/CEN JTC 10 - Energy-related products - Material Efficiency Aspects for Ecodesign - April 26, 2018

CEB-BEC 34 - Lamps and related equipment - April 27, 2018

CEB-BEC 89 - Fire hazard testing - May 4, 2018

List of all publications since February 1, 2018
